**BAYTEK® LLC & BAYTEK CONSULTING GROUP ANNOUNCE SUPPORT OF THE OUTLOOK
FOUNDATION**

Baytek® LLC Donates Office Furniture and Computers to Help Outlook Foundation – a 501(c)(3) Non-Profit. Baytek's Executive Leadership Supports Outlook Foundation

Scottsdale, AZ October 2, 2011 – Baytek LLC today announced its support of the Outlook Foundation, a 501(c)(3) non-profit organization. The Outlook Foundation's mission is to repurpose computers and give them to children in need, helping ensure all children have the same opportunities in education, and to military personnel being deployed so they can help bridge the communication gap with their families that they would otherwise face.

Judy Thornell, Baytek's founder, supports the Outlook Foundation's efforts to promote the development, distribution and adoption of repurposed computers. John Iasiuolo, founder and President of the Outlook Foundation, stated, "We're grateful for the ongoing support of Baytek LLC, and we look forward to continuing to work with Baytek over the coming years. I have known Judy Thornell for many years and she has built a thriving business, and has the ability to give time and resources to help our foundation. She has a heart of gold and understands a computer can open a world of opportunity for a child."

In an effort to support the new non-profit, Baytek LLC has donated office furniture, equipment and software to the Outlook Foundation. Judy Thornell, Founder of Baytek, is donating her time to help where needed. "I believe in the work of the Foundation and the dedication of John and Christine Iasiuolo to champion these important causes, including a most recent Foundation project Adopt An Airman. My husband spent four years in the Air Force before college and then spent his professional career serving in the White House and then in the Defense Industry until his retirement. It is an honor to help support an organization that supports our military personnel and their families. I encourage everyone to learn more about this wonderful Foundation.

By walking that extra mile alongside the Foundation's recipient families, the Foundation and its partners are providing the chance for better, more financially secure futures for our young people. Additionally, the foundation has recognized the need to keep military families in communication with one another and make the world a much smaller place for those families.
